Mr. McAdoo, the Flier  
About Tax Exemption

BY ARTHUR BRISBANE

HENDERSON, professor of physiology at Yale, ought to know something about the human body, and he says, "Four per cent of intoxicating is a beverage which, consumed in the ordinary way, would induce a temporary disturbance of physical condition and behavior."

Doctors have said that a child can absorb in a day, harmlessly, as much as two ounces of alcohol. If that be true, that child in a day could drink more than three quarts of 4 per cent beer without injury. But all that is theory. He who drinks now must drink bootleg whiskey or "neaded" beer, into which had alcohol has been pumped with a hypodermic needle.

THE EXTREMELY able Man of the Guardian, Great Britain's most famous and substantial newspaper, worries about us. The editor thinks our gangsters are of the same kind as Chinese bandits, and that our civilization is failing.

He hopes that the Manchester Guardian is too gloomy. Our gangsters shoot each other. Chinese bandits kidnap women, cut off a finger, or an ear, and send it back with a request for cash. Our gangsters have not adopted that method.

The Chinese bandit is a product of our government. Our gangster and our several-billion dollars a year bootleg crime system, are the products of our noble experiment in prohibition.

The wets say that if we abandoned the noble experiment, we could recover from gang rule. The dries say no.

Time will tell.

WINSFORD-SMITH sets a new record, flying from London to Allahabad, India, in five and a half days.

Airplanes may crash and dirigibles may be shot down, but the man has been one of unquenchable courage. That's why he rules the earth and the air.

McAdoo, who dug tunnels under the North river where others had failed, thus connecting Manhattan Island with the United States continent, turns now to the higher realms of transportation.

He is on his way by air from Los Angeles to New York, determined to learn "how fast an average business man can fly from the Pacific to the Atlantic."

NEW YORK wants \$330,000 a year taxes from the Chrysler Tower, built on land belonging to the President Cooper union, and supposed to be free of taxation.

At the same time, a taxpayer would compel the Knights of Columbus to pay taxes on their hotel in New York, which contains stores, a barber shop, etc.

The reply is made that at least one big Masonic building with stores is also tax exempt.

Judges, carefully selected, will decide these points. Meanwhile, little man wishes that the house in which, by the sweat of his brow and the worry of his soul, he feeds and raises his children.

Suppose the founder of Christianity returned and was asked, "Would you free from taxation the humble dwelling of a poor man and woman with five or six children and would you free a fine building cost?"

### TEMPERATURES TO DROP HERE IS FORECAST

Two Weeks of Balmy Weather Scheduled To End with Cold Wave.

HEAVY SNOWFALL IN WEST

Mercury Nears Zero Mark in Montana as Seven-Inch Snow Covers Ground.

Marionites Friday night are due to get their first taste of winter, after nearly two weeks of balmy weather. That was the dictum of official weather observers today, as reports of wintry winds and snow fall were reported from western sections of the country.

"Much colder" appears on the weather menu for Friday afternoon and Saturday, with the report that Ohio is directly in the path of an early cold wave, which is sweeping western and midwestern states.

Temperatures are expected to drop below the freezing mark in some places. Thermometers in western states are registering from 12 to 15 degrees above zero, news dispatches say.

Today will continue fair, followed by showers tonight or Friday morning, weather advisers show. The cold wave is due to strike the Buckeye state immediately after the rains.

Chilling breezes will bring a decided change in the habits and wearing apparel of Marionites, who have been enjoying weather of spring and summer quality for many days. Local temperatures have been hanging around the 60-degree mark, with a high of 77 reported yesterday. Low temperatures have been near the 30 mark, with a low of 55 reported last night.

A year ago the high was 73, the low 50.

Seven-Inch Snow  
Associated Press dispatches report snow ranging in depth from a trace to seven inches was general in the northern Rocky and Cascade mountain regions today.

Snowing yesterday and last night, starting from Montana into the northern part of Colorado, left a white blanket and descending temperature. A trace of snow fell in Denver near midnight.

Seven inches of snow was reported in the vicinity of Bozeman, Mont., temperatures ranging from 12 above at Judith, Mont., to 36 above at Helena, left a heavy ice coating.

Farmers face the loss of considerable unvested crops.

Wyoming, particularly in the southern part, had a heavy fall of the storm, bearing proportions of a blizzard at Laramie. Air mail planes and two army fliers were stormbound.

The forecast for today was cold and snow, with generally fair weather to follow.

### CHANCELLOR HOOTED IN REICHSTAG TALK

German House Scene of Riotous Demonstration as Official Outlines Program.

By The Associated Press  
BERLIN, Oct. 16.—Riotous scenes began in the German Reichstag five minutes after its opening at 3 p. m. today when Chancellor Brüning attempted to deliver his address outlining the program of the government for relief of the business depression.

The chancellor was greeted with Communist cries of "Down with the hunger dictator!" as he mounted the rostrum.

The chancellor began with a reference to the economic depression throughout the world which he said struck Germany especially hard.

"To overcome the crisis," he said, "the government has evolved a far-reaching economic and financial plan which will be submitted to the Reichstag in the form of a bill. To carry out this plan of saluary government will fight with all parliamentary means."

Reception and Address by Mrs. C. W. Davison Mark Opening of Session.

Mrs. Cleo Willmott of Ashland was elected president at the fifth annual convention of District No. 5, Daughters of Union Veterans in session at the L. O. O. F. hall here today. Officers were chosen at the close of this morning's session which was followed by a banquet at the First Presbyterian church. Officers were to be installed late this afternoon.

Other officers elected are Mrs. Alvord Eellenbaum of Ashland, junior vice president, Mrs. Carrie Tuttle of Marion, junior vice president, Mrs. Ella Davison of Marion, chaplain, Mrs. Alpha Crascher of Mansfield, patriotic instructor, Mrs. Marie Allen of Wooster, was reelected treasurer. A secretary and standing committees for the year will be named by the president. One hundred and eighty delegates and visitors were in attendance at the convention. In honor of the visitors the downtown section of the city was decorated with flags.

Representatives of the organizations from nine cities attended the convention.

The program opened this morning with music by the Ashland Fife and Drum corps composed of women, and the invocation by the district chaplain Mrs. Carrie Tuttle.

A photograph of the Ashland Fife and Drum corps playing at the convention appears on Page 2.

The address of welcome was given by Mrs. Ella Davison president of the local tent and the response was by Mrs. Eunice Cleland of Mansfield.

A feature of the morning session was a memorial service conducted by the Gallion tent whose members placed flowers in colors of red, white and blue. In a vase which occupied a prominent place in the center of the room, in memory of the deceased comrades and corps members of the last year.

Before returning to the hall for the afternoon session the guests visited the memorial to the late President and Mrs. Harding.

Mrs. Gail Montgomery of this city, department chaplain, presided for the tribute to the flag conducted this afternoon and Mrs. Allie Garst of Mansfield, was in charge of the presentation of the flag to the Olney Avenue school. Members of Tent No. 46 of this city, exemplified the ritual during the session. Music included selections by the quartet from the Wooster tent and a piano accompaniment by Mrs. A. J. Koons of Marion.

### POSSE FAILS TO LAND KIDNAPER

Search of Woods for Abductor of Heiress Gets No Results

HUNT RESUMED TODAY

Young Woman Victim Reported in Serious Condition from Exposure.

By The Associated Press  
GREENFIELD, Mo., Oct. 16.—Their search temporarily halted by a downpour last night, possemen from several southwest Missouri counties today planned to resume their search for the abductor of Mrs. Alma Wilson McKinley, 24-year-old heiress.

Mrs. McKinley, whose story of nearly 24 hours with the kidnaper has stirred this section of the state, today was under the care of a specialist, who said her condition was "not good." Effects of the long exposure, the doctor said, sent her temperature to 101 last night. She is an expectant mother.

For a time last yesterday, members of a sheriff's posse believed they had the abductor surrounded in a dense woods near Stockton. After sending for additional help they searched in vain for the man, who told Mrs. McKinley he was a former convict and would rather hang than return to prison.

Although Mrs. McKinley talked freely of her experiences, she refused to confirm a report she had agreed to pay the kidnaper \$10,000 after her release.

The abductor treated her with "utmost respect," she related, "and before he finally let me go we became downright confidential."

Although the kidnaper, who invaded the Wilson home Monday night armed with a sawed-off shotgun, told her about "the gang," investigators today were inclined to believe he worked alone.

### PILOT KILLED AS BLIZZARD WRECKS PLANE

Escort of Craft Bearing Naval Document Wrecked in West.

COMPANION GOES ON

Conquers Storm and Proceeds with Treaty Ratification to Washington.

By The Associated Press  
CHEYENNE, Wyo., Oct. 16.—Reeling Air Transport officials reported today that Pilot George Boyd had sighted the body of Lieutenant William W. Caldwell in his wrecked plane between Rock River and Lookout, Wyo. Searchers left by automobile for the scene of the wreck to get the body.

The plane piloted by Lieutenant Caldwell, army pilot, was lost in a blizzard yesterday while accompanying another ship east, bearing Japan's ratification of the London naval treaty.

Caldwell's ship was first sighted by Ray W. Meskimen, flying the east-bound air mail. Meskimen reported the plane had crashed in the wilds of both Meskimen and Boyd said all indications were that Caldwell lost control of his ship in the blizzard.

Brigadier General C. R. Howland, commanding officer of Fort Francis E. Warren, left Cheyenne early today in a military ambulance for Laramie. He was accompanied by a surgeon.

Brigadier General C. R. Howland, commanding officer of Fort Francis E. Warren, left Cheyenne early today in a military ambulance for Laramie. He was accompanied by a surgeon.

The body will be brought to Cheyenne in the ambulance and be in charge of military officials.

The other ship, bearing the treaty, sped on to its destination, New York, today after conquering yesterday's storm in the mountain country. With Lieutenant Irving A. Woodring at the controls, the plane took off here at 6:15 a. m. (Marion time) and safely passed through Omaha, Neb., less than four hours later.

Lieutenant Woodring paused on his eastward flight for 10 minutes in Chicago. He landed at the Curtiss-Wright airport at 11:55 a. m. and took off at 12:05 p. m. for Cleveland.

Passes Through Storm  
Woodring made his way here last night from Rock Springs, Wyo., penetrating a wild early winter snowstorm that separated him from his companion, Lieutenant Caldwell.

SOLE SURVIVOR OF THIS  
Woodring, One of Famous "Three Musketeers" of the Air.

By The Associated Press  
SAN DIEGO, Cal., Oct. 16.—Lieut. Irvin A. Woodring, whose companion flier, Lieut. William Caldwell, became lost on the flight from Victoria, B. C., to New York with the document attesting Japan's ratification of the London naval treaty, is the sole survivor of the famous army flier trip, "the three musketeers."

The other two "musketeers," who, with Lieutenant Woodring made army aviation history with their daring aerial maneuvers, both died, during aerial maneuvers, both died, performing stunts. Lieut. J. J. Williams, the leader, died during the national air races in Los Angeles, in September, 1928, and Lieutenant W. L. Cornelius was killed two weeks later when his plane collided with another in mid-air.

### Bishop Cannon Sees Hearst for 5 Million

By The Associated Press  
WASHINGTON, Oct. 16.—Bishop James Cannon, Jr., of the Methodist Episcopal church, south, shed a \$5,000,000 bond suit in the District of Columbia supreme court today against William Randolph Hearst.

The suit, said the New York Evening Journal, had printed stories which cast reflections on the character of the present Mrs. Cannon at the time of the death of the bishop's former wife.

### Tomorrow's School

For many of the youngsters being cared for in the nursery at the rear of the auditorium, sixty-four children were cared for yesterday by Mrs. G. E. Waddell and her assistants.

Questions which prove puzzling to housewives are answered by Mrs. Lautz in the last hour of the session and at the close visitors are invited to the platform to inspect the results of the afternoon's demonstration.

The school will close Friday afternoon with the session opening at the same hour.

### DISAPPEARS

The country-wide search for Charles V. White (above), New York stockbroker, continues at the request of Deputy Attorney General Watson M. Washburn, who is eager to question the missing broker in connection with alleged curb exchange activities. The plane in which he flew to Chicago, where all trace of him is lost, has been found in the Chicago municipal airport.

WHITE FLIES TO MEETING

Believed First Time Airplane Ever Used in Ohio by Campaigner.

By The Associated Press  
ZANESVILLE, O., Oct. 16.—Governor Myers T. Cooper, Republican candidate to succeed himself, and George White of Marietta, the Democrat who hopes to replace him, crossed swords on the same platform in placing their issues before the convention of the Ohio League of Women Voters here last night.

It was the first time in the present spirited campaign that the two gubernatorial candidates spoke before the same gathering and was marked by what is believed to have been the first time the airplane was resorted to in Ohio by a political campaigner.

White flew from Ada, where he had a late afternoon engagement, to Newark, where he was forced to land by darkness and hurried the rest of the way by automobile.

Robert J. Bulkley, Democratic candidate for senator, also spoke with White. Senator Roscoe McCulloch, seeking re-election was invited to face him, but was prevented by a previous engagement at Youngstown.

White challenged the governor's stand on taxation and received a sharp retort. Bulkley made one of his most emphatic declarations against national prohibition.

White, agreeing with Cooper that taxation revision will be the most important task of the next legislature, said it is the most important thing that ever happened in this state. It is transcendent. It gives the legislature more power than it has ever had before. It makes them

Firm Files Petition with Utilities Commission Today Asking New Hearing.

CLAIMS PROPERTY TAKEN

Action Taken After State Body Orders Company To Refund Tolls.

By United Press

COLUMBUS, O., Oct. 16.—The public utilities commission today was petitioned by the Ohio Associated Telephone Co., successor of the Marion County Telephone Co., for reconsideration of an order by the commission fixing a new schedule of rates to be charged telephone users in Marion and ordering a rebate of excess charges collected from subscribers in Marion from Aug. 1, 1928 to Nov. 1, 1930.

The telephone company petitioned the commission for rehearing on the order on the grounds that it had the effect of depriving the company of property and rights without due process of law and is in violation of the fourteenth amendment to the Constitution of the United States.

Refund to Start Jan. 1

The new rate schedule was fixed by the commission Sept. 28.

The commission recently advised the Ohio Associated Telephone Co. that the refund was to be started Jan. 1, 1931, and completed at the earliest possible date.

Determination of amounts due subscribers was to be completed Dec. 31.

The commission's order provided further that, effective Nov. 1, billing of the company should be conformed to the rates set in September.

In the petition for rehearing the telephone company held the findings of the commission are wholly unreasonable as the value of the company's property as set by the commission is less than the true value.

In support of the statement the company submitted figures representing the true value of the company's properties at the present time.

Say Tolls Inadequate  
The present value of properties, the petition states, is not less than \$1,500,000 and has not been so since May 1, 1928. The value of the company's property is set by the public utilities commission's engineers is \$1,170,572.41. The value was determined as a basis for determination of feasible service rates.

"The rates, tolls and charges which the applicant is directed to charge are not adequate and in charge are to provide the Ohio Associated Telephone Co. with sufficient revenue to manage its properties," the petition read.

### DIAMOND'S VISITORS SOUGHT BY POLICE

Three or Four Known To Have Seen Gangster Before He Was Shot.

By The Associated Press  
NEW YORK, Oct. 16.—Three or four men who visited Jack Diamond 36 hours before he was shot, were sought by police today.

The wounded gangster's condition was so improved that surgeons on an operation to remove the bullet which were fired into his body in his room in the Monticello hotel Sunday forenoon.

After a day in which a number of persons, including both friends and enemies of Diamond, had been examined, Police Commissioner Mulrooney said he had learned the names of three or four men who visited Diamond Friday night. He refused to name the men, but said their arrest had been ordered.

One of three reputed underworld characters questioned yesterday was held for further examination while the other two were released after making statements.

Charles Estrada, alias Green, an ex-convict who was indicted with Diamond for the slaying of two gangsters in the Mitty Tully club in July, 1928, was held after being brought from a hotel in New Rochelle, N. Y.

Shakespeare for Africans—Shakespeare is being translated into Sotho by Sol Plaatje, a native journalist of Dechuannaland, South Africa, and the idea is making a hit among the natives, who are greatly interested in the sayings of the Bard. "Let me have men about me that are fat," is an expression of opinion which they heartily endorse, for all tribes believe that chiefs and other leaders

should always be distinguished from ordinary people by their imposing physique. One of the passages which they particularly appreciate is "When beggars die there are no comets seen; the heavens themselves blaze forth the death of princes." For the native tradition has always read notable events such as the birth or death of a ruler or brave warrior in the appearance of comets, meteors and similar phenomena.

Some of the most deep-seated superstitions are those you never hear of.

autocrats. They can pass anything, income tax, sales tax, anything they want.

"I'd like to hear Mr. Cooper tell of the plans for tax revision," he said after attacking the governor's taxation committee as "unwieldy" and foreseeing no great achievement. Cooper in reply asserted that having planned and built more than 2,000 homes in Cincinnati, he knew "as much about taxes as any man here. Mr. White, before I take action, I get all the facts. If you don't, you hunker."

McCulloch Says Opponent Fails to Offer Prohibition Substitute.

By The Associated Press  
YOUNGSTOWN, O., Oct. 16.—Senator Roscoe C. McCulloch charged last night that Robert J. Bulkley of Cleveland, his Democratic rival in the November election, has failed to bring forward a single constructive suggestion to replace the 18th amendment.

Bulkley, who stands for repeal of national prohibition, "talks about the old saloon being gone forever, but he does not mention the new saloon that would come," McCulloch said at a Republican rally.

By The Associated Press  
CLEVELAND, O., Oct. 16.—Max D. Gustin, Republican candidate for congress in the twentieth district, came out in favor of repeal of the 18th amendment in a campaign address last night. Gustin advocated a system of close government supervision.

## Richwood Man Given 30-Day Jail Sentence

Walter Hitchcock, 31, of Richwood was sentenced to 30 days in the county jail when he pleaded guilty in municipal court this morning to a charge of petit larceny.

Action was brought against him by F. W. Beard, who charges Hitchcock stole brass bearings valued at \$12.

Hitchcock was arraigned several months ago on the same charge, but the case was never disposed of.

## 2 YOUTHS ARRESTED IN STORE BURGLARY

Police Say Pair Confesses To Breaking Window at Smith Confectionery.

Two Marion youths today were facing burglary charges in connection with the burglary Saturday night of Smith's Confectionery on Silver street at the C. & O. railroads. No report of the burglary was made to police until the youths were arrested last night.

They are Hobart Hostetter, 20, of 501 Seranton avenue, and Kuntin Boggs, 18, of 231 Edwards street. Police say they confessed to the burglary this morning.

Entrance to the confectionery was gained by breaking a front window. A small quantity of chewing gum, candy and tobacco was taken.

## OFFERS PLAN

A. F. of L. Proposes Means to Aid in Relief of Unemployed.

By The Associated Press  
BOSTON, Oct. 16.—The American Federation of Labor today offered an unemployment relief plan in the form of a cooperative committee of public and private groups headed by President Hoover.

Under the plan, adopted at yesterday's convention session, the president, governors of all states, mayors and other city and county officers as well as labor groups, would appoint national, state, county and district committees. In cooperation with federal and state departments, these committees would make specific recommendations for their particular localities.

The executive council of the federation was instructed by the convention to call upon President Hoover immediately after the adjournment of the convention.

## Brazilian Federals Plan Big Offensive Drive

By The Associated Press

RIO DE JANEIRO, Oct. 16.—Extensive troop movements were being carried out by the federal government today in its campaign against the revolutionary forces, particularly in the southern portion of the state of Minas Geraes.

Reserve forces were gathering at concentration camps from numerous cities within federal control.

Refuting rebel claims of important victories along the Sao Paulo Parana frontier, government authorities announced that the respective position of the federal and insurgent forces was unchanged.

Gilding Institute Wanted.—The French air ministry has been asked by two prominent aeronautical associations to establish a gilding institute. They promise to assist the project in the way of finance, counsel and material. The institute would determine the most effective types of gliders, the best fields for gliding operations and other questions connected with the sport.

## LECTURER TO TALK HERE SUNDAY NIGHT

Peter W. Collins Will Discuss "Catholic Action" Under Auspices of K. of C.

Peter W. Collins of Boston, Mass., widely-known lecturer, will speak at the Elks' lodge hall Sunday, Oct. 19, at 8 p. m. under the auspices of Marion Council No. 671, Knights of Columbus.

Mr. Collins will talk on "Catholic Action." More than 20 years ago his work was specially blessed by Pope Pius X. In the last 25 years he has lectured in 5,000 communities in North America and has been heard over the radio by millions.

Dr. W. A. Dennis was chairman of a committee on arrangements to bring Mr. Collins here. The committee included Harry Kelleher, John Kaulfield, Henry Drake and Rev. Fr. William J. Spickerman, pastor of St. Mary's Catholic church.

For eight years Mr. Collins served as international secretary of the International Brotherhood of Electrical Workers and as editor of the Electrical Worker. He is an honorary organizer of the American Federation of Labor, a former president of the Boston Central Labor union, former member of the Illinois industrial commission and was associated with the late President Taft and with President Lowell of Harvard university in the League to Enforce Peace.

At the close of the World war, in which he was an industrial expert for the government, he was appointed director-general of the Knights of Columbus Reconstruction and Employment service, which created and found jobs for thousands of former service men.

## SHIPS COLLIDE

British Freighter Rams Cuban Sidewheeler and Sinks It.

HAVANA, Oct. 16.—The British freighter Hallmoore collided with the Cuban vessel Antolin Del Collado and sank it today, six miles off Mariel, Cuba.

The Antolin Del Collado's crew of 28 and two passengers were rescued by the Hallmoore, which proceeded immediately to Mariel, in the province of Pinar Del Rio, the nearest port.

The sunken vessel was a 50-year-old sidewheeler of the Empresa Naviera De Cuba fleet, of 977 tons, carrying a cargo valued at \$80,000.

ting millions erected in your honor?"

What do you think He would answer?"

THE CHIEF OFFICIALS of the New York Stock Exchange, it appears, dined with President Hoover on Sunday and answered some questions.

The President is supposed to have told the stock exchange officials what he thinks about conspiracies to lower values and increase apprehension by short selling. If he told them all he thinks, they heard a good deal.

You are "almost persuaded now to believe" that the old law of supply and demand is not so powerful when you are not afraid of it.

Ordinary talk about interfering with short sales or any form of conspiracy to diminish or injure prices in Wall street would be silenced with "Supply and demand regulates that."

But after President Hoover had a talk with stock exchange leaders supply and demand suddenly ceased to take the form of poison attacks on stock values, at least for one day.

If, wise, the exchange will modify the activities of racketeers on the short side and avoid unpleasant federal regulations.

IN THE OLD DAYS in China superfluous girl babies thrown into the water were not interesting. There were so many of them.

In our day racketeers and others "put on the spot" have become part of routine news.

But there is some interest in the improved methods of killing.

According to the police, men disappear, detectives know that they have been taken for a ride, but their bodies are no longer found, thrown out on the road.

The improved method kills the man, takes him to deep water and throws him in, heavily weighted down with iron wired to his body. Dead men, thus disposed of, tell no tales.

THE "RIOTS IN BOSTON," with "red Communists," so-called, insisting on sharing the deliberations of the American Federation of Labor, were not serious.

It is interesting to note that "red" ladies were more violent and active than the men.

One or two of the ladies, it is said, bit and scratched policemen and refused to "act lik. a lady."

when urged to do so by police. One even asked, "What do you know about a lady?"

## DAUGHERTY REPORTS BANKRUPTCY FIGURE

Former Bank Head Lists Assets at \$362,346, Liabilities at \$642,933.

By The Associated Press  
CHILLICOTHE, O., Oct. 16.

S. Daugherty, former president of the defunct Ohio State bank, Washington, C. H., listed liabilities at \$642,933.77 and assets at \$362,346.10 in a schedule of his financial condition filed today with George B. Blitzer, referee in bankruptcy here.

Daugherty, at liberty under a \$40,000 in Fayette county indentments charging 57 different counts of mishandling affairs of the bank, filed the schedule in connection with involuntary bankruptcy brought about by Attorney General Gilbert Bennett in behalf of the state department of banks.

N. P. Clyburn, counsel for Daugherty, filed the schedule. In liabilities list Daugherty's \$306,907.37 under a heading "to be paid by others," and his personal liabilities at \$336,026.10.

In the "assets" paid by others," column Daugherty listed of \$37,702.37; bonds of \$250,000; accommodation notes of \$1, which he said he had signed a curity but which should be set by the makers.

Debts due on open accounts fixed at \$13,741.63 and on stock account \$126,520.

Daugherty claimed an exemption of \$500 under the law.

## Herbert Hoover Jr. To Be Taken to Mount

By The Associated Press  
WASHINGTON, Oct. 16.—Herbert Hoover Jr., who is suffering tuberculosis at the Hoover lodge in Virginia, is to be taken later in fall to Asheville, North Carolina for treatment.

Captain Joel T. Boone, the White House physician, announced that a home on Sunset mountain overlooking Asheville had been leased by the son of the president and he would be taken there in November.

Dr. Boone said the president's son has responded well to treatment and has made satisfactory progress since he was taken to the presidential camp in the mountains of Virginia several weeks ago.

## JAMES FOSTER, 74, PASSES AWAY HERE

Retired Farmer Dies in Hospital Following Stroke of Paralysis.

James R. Foster, 74, retired farmer, died yesterday at 2:15 p. m. in the City hospital of complications resulting from a stroke of paralysis. His home was at 236 Oak street. Mr. Foster had been in poor health for five years.

He was born Oct. 22, 1859, in Marion county to Mr. and Mrs. George Foster. His first wife, Elizabeth, died in 1879 in Kirkpatrick. He married her in death. Mrs. Elizabeth Foster, his second wife, died in 1917.

His surviving children are James M. Foster of Kansas City, James T. Foster of Marion, Robert T. Foster of Kansas, Mrs. Mary Christy of Kansas, Mrs. Helen Heuck of Kansas and Mrs. Mary Ingram of Missouri.

Brothers and sisters living are Mrs. Ella Beck of Marion, Forbert R. Foster of Richmond, Va., and Samuel B. Foster of Marion.

Funeral services will be held Friday at 2 p. m. at the Lee Cooper home at 374 Silver street and at 11 a. m. at the First United Methodist church. Rev. Karl W. H. pastor of the Prospect Street M. E. church, will be in charge.

**Cars For Rail or Road**—Motor coaches which may be run on rails or on roads at will are being used by a leading railway in England. The coaches will have pneumatic tires for running on the road and, in addition, steel wheels with flanges for rail travel. Passengers could embark at a central point in a city, be run to a railway, and thence reach their destination at high speed.

**Old Vagrants Disappear**—Old vagrants in England have disappeared the old vagrant, according to Commissioner Lamb of the Salvation Army. The present type of vagrant, he said recently, consists largely of ex-soldiers. Interviews with 1,000 men revealed that half were over 40 years old, 64 per cent were ex-service men, and 57 per cent had never been in a casual ward before the war.

**Birds Caught With Mirrors**—Greediness of pigeons is to be used in ridding London of many of the undesirable birds. Men employed by the city to do away with 100 pigeons say that the birds are quick to seize any food before them if another is near. The mirrors are to be used to produce the "glitter" bird, and so enable the men to catch them while they are greedily devouring scattered corn.

**"Prisoner" Will Not Leave**—Lew-Edam England, police have a prisoner in a cell of their station whom they are anxious to get rid of but has no desire to go. It is a large swan, which alighted in a busy street and tied up traffic. Two men larger policemen finally captured it. Police reports show that it has a large appetite and no friends.

Former shareholders of the Fother Valley railway, in Ireland, recently rejected the offer of the government to buy the railway on the basis of \$30 a share.

A Year of Celebration.

Wednesday was the first day of a celebra-  
tion worldwide in scope that will last a year—  
the celebration of the 2,000th anniversary of  
the birth of Vergil. Scholars and students  
for decades have anticipated the celebration as  
one of profound significance to all lovers of  
literature.

The poetry of Vergil endures despite its  
twenty centuries of age. Time has enhanced  
recognition of its beauty and added to the  
acclaim of Vergil as one of the world's major  
singers in verse. Perhaps no other poet has  
received such universal, timeless acclaim.

While he was alive, Vergil was honored by  
his countrymen. Two thousand years after  
his death he is honored by all mankind.

Scholars are anxious that the world under-  
stand that mischance has made Vergil known  
chiefly as a contributor of heroic sagas, a  
singer on nationalist themes. The "Aeneid"  
was written after Vergil had made his fame  
with poems of the peaceful arts and indus-  
tries. Those who have given the deepest study  
to the story of his life hold, without hesita-  
tion, that Vergil would have placed the  
"Aeneid" secondary to the "Eclogues" and  
"Georgics." They were the true mirrorings of  
his soul.

Vergil established, as few poets have suc-  
ceeded in doing, a perfect communion with  
the finest ideals of human life. He was, to be  
true, a poet of the people, but he wrote for  
himself. It is to the people's credit that they  
understood. If any lesson is to be pointed  
out to modern writers during the current cele-  
bration it is that: there is nothing more im-  
portant in writing than expressing the finest  
emotions and thoughts within oneself. If they  
be worthy, acclaim will follow naturally.

the Grain and Feed Dealers' National associa-  
tion, that grain men generally will welcome  
such modification of the Volstead act, if and  
when it comes, as will permit of the legalized  
manufacture and sale of beer, if true, would  
in itself offer no ground for criticism. But  
when, in addressing the annual gathering of  
the association in Chicago this week, he linked  
it with the announcement that the Pabst in-  
terests in Milwaukee, are expending nearly a  
million dollars for new equipment in anticipa-  
tion of modification of the law and compli-  
menting Fred Pabst, Sr., head of the Pabst cor-  
poration, for having the business sagacity to  
be prepared for modification, he made evident  
his alignment, if not his alliance, with those  
propagandists of wetness who, impelled by a  
desire for monetary gain, industriously and  
persistently are waging a campaign to lead  
the public mind into the belief that modifica-  
tion is just around the corner.

As a matter of fact, the new equipment be-  
ing installed by the Pabst people is adaptable  
alike to the making of malt syrup and the  
brewing of beer—a fact which goes to indi-  
cate a considerable degree of doubt on the  
part of the Pabst people regarding early modifi-  
cation. Nothing in press reports indicates  
that Mr. Dow brought out this dual adaptabil-  
ity. He did make plain, however, his disaffec-  
tion with the estimate by Mr. Pabst, made  
the day before, that the brewing interests  
of the country, up to the time the prohibition  
law became legally effective, were affording  
a market for 58,000,000 bushels of grain. He  
insisted that this estimate was far too low, that  
the resumption of legalized beer brewing would  
afford a grain market of not less than 100-  
000,000 bushels, which "would help eliminate  
the surplus supply and steady prices."

This talk of an added hundred million  
bushels to the grain market is just a part of  
the campaign, a fellow to the stories about  
the tens of thousands of men to be given em-  
ployment in the event that legalized beer brew-  
ing is renewed, stories which naturally have  
added appeal in a time of great unemployment.

A vision of an increase of 100,000,000 bushels in  
the grain market is naturally intended to in-  
fluence grain growers, to cause them to feel  
more kindly toward modification. Just how  
much, if any, legalized beer brewing would in-  
crease grain consumption is a problem. Corn  
sugar and other grain products figuring in  
whisky and beer making are making quite a  
market for grain under present conditions.

Let us even assume that some of these propa-  
gandists are honest in their belief. What  
would it prove? The champions of dryness  
probably were honest in their beliefs that pro-  
hibition would practically abolish crime and  
empty the jails. Their beliefs proved to be  
beliefs and nothing more; and their beliefs  
were not influenced by visions of monetary gain.

But this matter of beliefs aside, it must be  
evident to all—at least, it should be—that the  
purpose of this campaign of propaganda is to  
frame the mind of the American citizenship to  
the thought that modification is imminent,  
if not as good as assured at the coming ses-  
sion of congress, looking to this thought, once  
implanted, to have great psychological effect  
on the members of the two legislative bodies.

There is no real basis for assuming that con-  
gress, at this session at least, can be thus in-  
fluenced. Unless there be a radical change in  
the voting of the membership, of which there  
isn't any probability at this time, defeat of  
any attempt at the coming session to enact  
legislation looking to modification which will  
legalize the manufacture and sale of beer is  
as good as assured. The real leaders in opposi-  
tion to the prohibition law—those who are  
opposed to it on principle—do not expect it.  
Those who are inspired by hope of personal  
gain are they who are waging the present cam-  
paign of propaganda.

The 1930 census shows 6,297,877 farms in the  
United States, a decrease of 150,466 farms, or  
2.3 per cent. However, with surplus crops of-  
fering the country problems almost annually,  
that's nothing for those still tilling the soil  
to worry about.

The state this week let contracts for twelve  
new highway projects, the aggregate cost of  
which will approximate \$500,000. Not so much  
in the way of highway building, but every little  
helps, which we here may realize as part of  
the expenditure will be made here in Marion  
county.

Within twenty-four hours after they had  
held up a bank in Battle Creek, Michigan, ac-  
cused \$4,000 and killed a highway policeman  
who sought to question them, two bandits were  
captured, their loot recovered and they had  
entered on life terms in the Michigan state  
prison in Jackson. Were justice always thus  
speeded, crime would quickly lose its popu-  
larity.

Statistics show that 1,232,559 marriages were  
solemnized in the United States last year and  
20,475 divorce decrees granted. So long as  
he can maintain a five-to-one lead, little Dan  
Cupid hasn't any ground to become really dis-  
turbed.

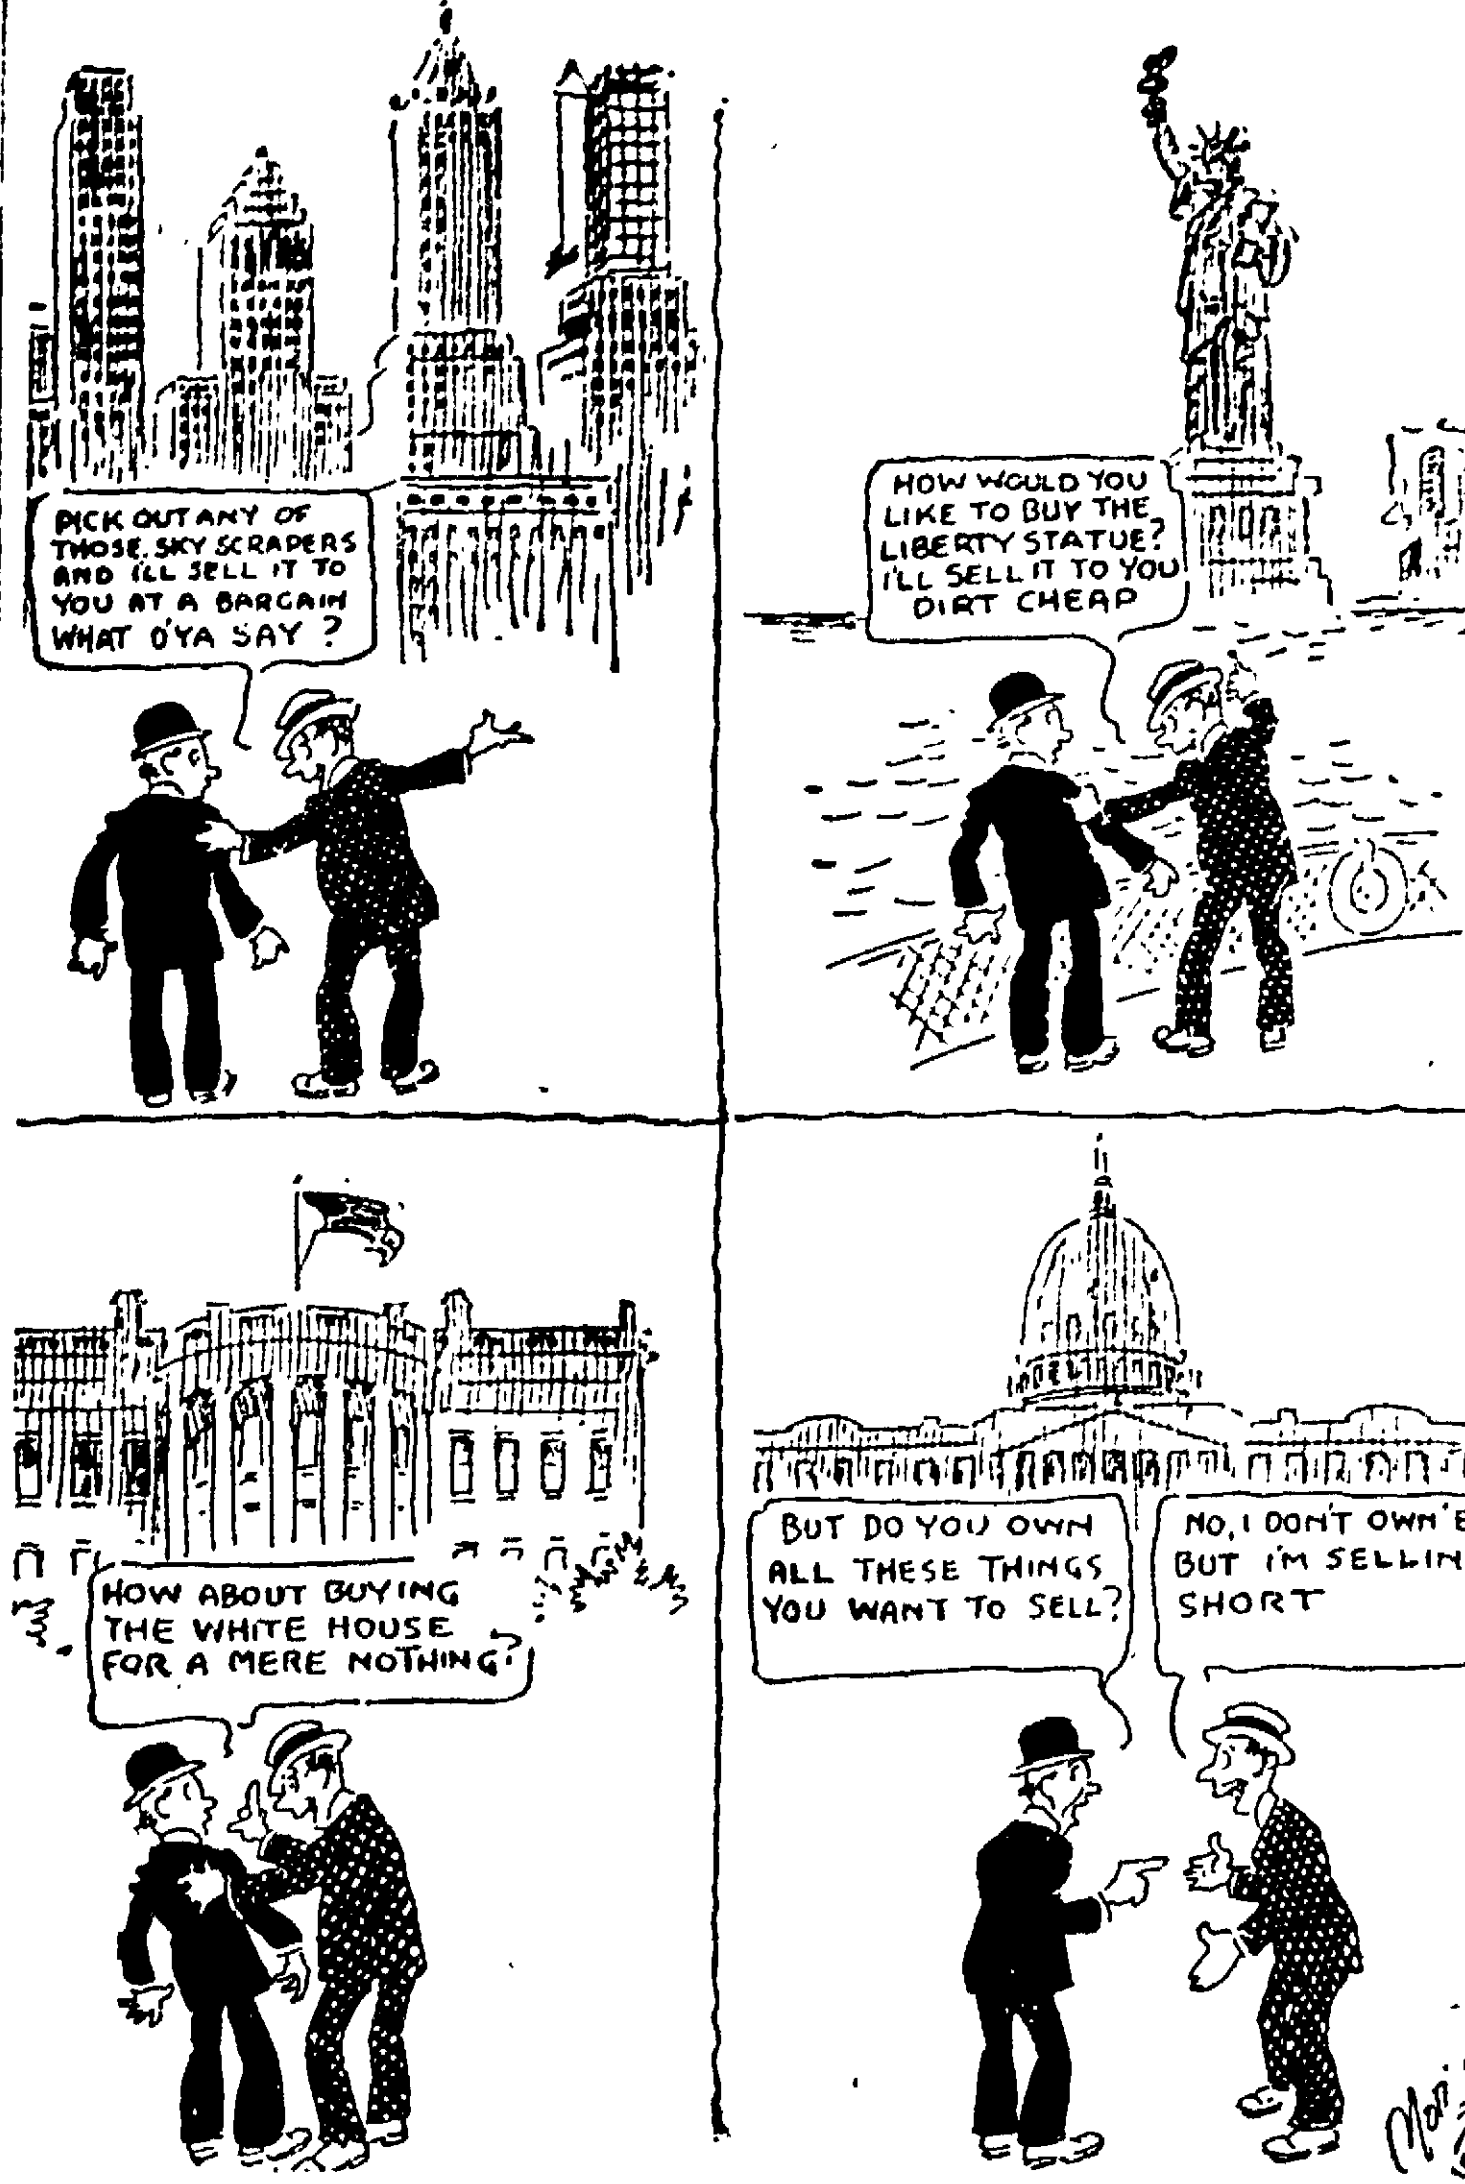

The Argentinean minister of finance reports  
that the recently deposited Irigoyen government  
left a deficit of \$251,280,000. In the face of all  
the charges made against it, the surprising  
feature of the announced deficit is that it  
wasn't more.

The Hon. James M. Cox, judging by his re-  
cent radio talk, has reached the "what would  
have happened if" stage of political oratory,  
than which there is little in the way of cam-  
paign spellbinding less convincing.

President Doumergue has uttered warning  
that it will not be well for anybody to attack  
France again. For some reason, we can not  
get away from the thought that that kind of  
talk is not calculated to dispel the natural  
timidity of the gentle dove of peace.

The Toledo plant of the Chevrolet Motor  
Ohio company has resumed operations with  
1,200 men on the payroll, and the Fisher Body  
company, now employing 2,000 in Cleveland,  
hopes to have 6,000 men at work before the  
end of the coming winter. No matter what  
the economic conditions, there is always de-  
mand for the necessities of present-day life.

## SELLING SHORT.

## Editorial Opinion.

## SOUND SENSE FROM A DRY LEADER.

There is satisfaction for all true believers in  
temperance in the speech delivered by Mr.  
Stanley High, editor of "The Christian Herald,"  
at the state convention of the Woman's  
Christian Temperance union. For Mr. High  
did not take the attitude that the eighteen  
amendment was more important than the pro-  
motion of temperance, nor did he assume the  
highly unphilosophical stand that all who op-  
pose prohibition are born of the devil.

"I am fearful about prohibition," said Mr.  
High, "because of the extent to which it fails  
to prohibit. I believe that we could well afford  
to declare a moratorium on our boasting about  
the benefits of prohibition and concentrate on  
the prevalence and ravages of liquor."

Here indeed is a new note, and a welcome  
one. If this attitude were more widespread  
the present raging differences between wets  
and dries would largely disappear, and instead  
we might have a people united to promote true  
temperance. Nor does Mr. High make the  
mistake of saying that all who oppose the  
eighteenth amendment are "tools of the liquor  
interests."

"Back of this wet drive," he says, "there are  
a large number of mighty fine folks, not so-  
cially irresponsible, but convinced that pro-  
hibition is a social liability and turning their  
minds to the task of getting rid of it. Unfor-  
tunately, we, the dries, have never had much  
to say to people of that kind. We have rather  
generally agreed that our position is God's po-  
sition and that all those who stood elsewhere  
were publicans and sinners."

A little more plain and candid talk of this  
kind may lead to the eventual settlement which  
distinguishes the liquor question today. It may  
convince both the wets and the dries that  
realism is a more potent agent than abuse and  
may discourage third-party movements, which  
only end by making matters worse than they  
were at the start. This country has never ac-  
complished much when divided into camps  
which merely spat at each other and refused  
to see the truth. But when Americans have  
been willing to cooperate the field of con-  
structive action before them has been welnigh  
limitless. Mr. High's remarks are especially  
welcome because they point the way to such  
cooperation.—New York Herald Tribune.

## NAVY DAY.

Monday, October 27, is designated as "Navy"  
day. This marks the ninth year that the Navy  
League of the United States, supported by vet-  
erans' organizations, civic groups and patriotic  
societies, has made a special intensive effort to  
interest the people in the purpose of the navy,  
its activities and its need for rearmament.

It has been the custom for many years to  
celebrate the navy's first line of defense. De-  
spite the many modern inventions for warfare,  
it has not yet been disproved that ships and  
guns and bluejackets trained to man them are  
still the most effective first line of defense.

But the navy does more than await an attack  
on our shores. It protects the lives and the  
legitimate interests of Americans abroad.

Without it, so long as similar maritime weapons  
exist in other countries, there can be no back-  
ground of security to our world sea trade and  
no assurance that a merchant marine, devel-  
oped to carry American goods in American  
bottoms, will become one of our largest com-  
mercial assets.

On "Navy" day this year the United States  
can make two boasts. It had demonstrated its  
readiness to go to the limit in naval reduction  
whenever the rest of the world is agreeable.

Without great financial hardship, it can build  
and maintain a sea fighting unit that would  
bring economic ruin to any other nation. The  
two claims are complementary, and on "Navy"  
day America can be proud that with resources  
which could make her a sea tyrant she has  
consistently chosen the peaceful way.—Cincin-  
nati Enquirer.

## The Word of God.

Seeing we are compassed about with so  
great a cloud of witnesses, let us lay aside  
every weight, and the sin which doth so  
enchain us, and let us run with patience the  
race that is set before us, looking unto Jesus  
the author and finisher of our faith; who for  
the joy that was set before him endured the  
cross, despising the shame, and is set down at  
the right hand of the throne of God.—Heb.  
12:1.

Prayer—"Lord I believe; Thy power I  
own. Thy word I would obey."

## Cleanliness and Health.

BY ROYAL S. COPELAND, M. D.

We occasionally hear some mother say her  
baby has "sprue," or "thrush." These are the  
names used to describe a condition of the  
mouth to which children, particularly babies,  
are liable.

A similar form of sore mouth is found in all  
ages, and is known to the doctor as "stomat-  
itis." Grown people often develop single  
ulcers or "canker sores."

Sprue appears as small white ulcers on the  
tongue, gums and the roof of the mouth. These  
ulcers resemble small particles of curdled milk.  
If neglected, the ulcers may spread through the  
whole digestive system, but usually they are  
confined to the mouth.

The child complains first of pain or tenderness  
of the gums. The inner surfaces of the  
cheeks and the gums are spotted with white  
patches. When wiped off these patches leave  
small raw spots, small ulcers.

As the trouble goes on the gums become  
very sensitive. Later, they are swollen and  
spongy and bleed when touched. In fact, the  
mouth is so sore that the child can not take  
solid food.

Lack of cleanliness is generally the cause  
of sprue. Unclean spoons, unclean feeding  
bottle, unclean utensils used in the preparation  
of the feedings, some form of neglect is at the  
foundation of the trouble.

Prevention is better than cure in all human  
ills. It is doubly true of digestive ailments of  
children. The bottles, nipples and all uten-  
sils used in preparing the baby's food must  
be kept scrupulously clean. After each feeding  
the mouth should be cleaned with an alkaline  
wash. Lime water or a solution of bicarbonate  
of soda can be used. Add a teaspoonful of the  
soda to a glass of water.

A piece of soft cloth or absorbent cotton  
wrapped about the finger may be used to wash  
the mouth. This must be done carefully be-  
cause of the soreness. Repeat the treatment  
every hour or two.

The doctor will advise you about the food and  
prescribe appropriate treatment to build up the  
general health.

## ANSWERS TO HEALTH QUERIES.

MRS. W. T. F. Q.—Is there any safe way to  
overcome the habit of chewing tobacco. The  
patient in question is a slave to the habit and  
I am afraid it will undermine his health.

A.—No. The patient should use his will  
power to break the habit, which is not only in-  
jurious to the health, but most unpleasant as  
well.

M. B. Q.—Would adhesions be apt to cause  
a ripping, burning sensation in the abdomen  
when one sneezes? This occurs only when ly-  
ing on the back. I have had an operation for  
removal of the appendix.

A.—It would be rather difficult to advise with-  
out making an examination. Acidity would be  
likely to cause the burning sensation. Why not  
see your doctor for examination and treatment?

A. B. C. Q.—What do you advise for ulcer  
of the stomach?

A.—Send self-addressed, stamped envelope for  
full particulars and repeat your question.—

## Twenty Years Ago.

It was Sunday, October 16.

Walter Wilman wireless that all was well  
with the America, that he had shut off the  
motors and was being carried eastward over  
the Atlantic by a twenty-five-knot breeze.

Mr. and Mrs. E. B. Foos entertained a large  
company at dinner at their home south of  
LaRue.

As the result of a fall at his home, A. P.  
McMurray cut a gash an inch deep and six  
inches long in his right arm which caught on  
a nail.

A son was born to Mr. and Mrs. Clarence  
Brewer, of Clinton street.

The Epworth M. E. Sunday-school held its  
annual "Promotion Day" exercises.

Miss Caroline Rose Myers and Mr. Del Roy  
LaRue were married by Rev. Joseph Reinick.

Two heavy storms passed over Marion, one  
at 3 p. m. and the other about an hour and a  
half later. During the first storm there was  
a heavy fall of hail, not a few, but many, of  
the hailstones being as large as walnuts and  
some of them being two inches in length.

## A Famous Number.

BY ARCHIBALD HENDERSON.

Perhaps the most famous number in history  
is not three or seven, the sacred numbers, or  
360, the number of degrees in a circumference,  
but the number known by the Greek letter  $\pi$ ,  
called pi. It represents the ratio of the cir-  
cumference of a circle to its diameter. If the  
circumference of a circle were unity or one, then  
this strange number would represent the cir-  
cumference of the circle. It was long known  
in this way, and so appears, for example, in  
Oughtred's "Clavis Mathematicae"—edition of  
1647. But from the time of William Jones,  
who gave it its present meaning in 1707,  $\pi$   
has been taken to mean the ratio of the cir-  
cumference of a circle to its diameter. The  
Greek letter  $\pi$  has come into popular use for  
this ratio since its adoption by Euler in 1737.

The value of  $\pi$  is given, erroneously, in the  
Bible, more than once. In Chronicles 4:2, we  
read: "Also he made a molten sea of ten cubits  
from brim to brim, round in compass, and five  
cubits the height thereof, and a line of thirty  
cubits did compass it round about." This is a  
description of the priests' bathing pool in Sol-  
omon's temple. Evidently, the ancient Jew  
used the number three as the ratio of the cir-  
cumference of a circle to its diameter. This  
value is approximately five per cent. short of  
the actual value.

There have been many approximations to the  
value of this ratio. In the famous Rhind  
papyrus of the Egyptians—of estimated date  
1700 B. C.—the value of the ratio is given as  
256 divided by eighty-one, which is only about  
one-third of one per cent. in excess of the true  
value.

The three classic problems of antiquity were:  
the doubling of a cube, the trisection of an  
angle, and the squaring of a circle. The last  
is substantially equivalent to the determina-  
tion of  $\pi$ , for the area of a circle of unit radius  
is equal to  $\pi$  square units, and if the number  
 $\pi$  could be expressed rationally the whole ques-  
tion would be reduced to the construction of a  
square of a given area. If the Egyptian value,  
given alone, were exactly correct, then the  
area of the circle would be the same as that  
of a square erected on eight-ninths of its  
diameter.

Every student of geometry knows that an  
approximate value of  $\pi$  is found in the text  
books by finding the value of the perimeters  
of regular polygons circumscribed about, and  
inscribed in, a circle. In this way, for example,  
Archimedes showed that  $\pi$  lies between 3-17  
and 3-167.

Certain values are worthy of record. Ptolemy  
—A. D. 150—found an almost exact value, cor-  
rect to four decimal places. The following  
values have been computed by scientists, the  
value correct to the number of decimal places  
following their names: Van Ceulen—1510-1610—  
35; Vega—1792-1802—140; Dase—1861-200;  
Richer—1854-500; and lastly, Shanks—  
about 1853-707.—Copyright, 1936, International

## Lost Children in Early Ohio.

BY J. H. GALBRAITH.

Cases of lost children were much more fre-  
quent in Ohio pioneer days in proportion to  
the inhabitants than they are now, and for  
good reasons. A few steps from the cabin home  
and the child was in the trackless woods. There  
it might become the victim of some wild animal  
or wander until overcome by exposure and die.

And there were always Indians prowling  
unseen in the vicinity to pick up such helpless  
wanderers and carry them away into captivity.  
Such a story is carried in the chronicles of  
Wyandott country. In the fall of 1825, Matthew  
Brayton left his home on his father's in Claw-  
ford township with an older brother to search  
for their father's cows. On the way they met  
a neighbor, who joined them in the search,  
but as it promised to take them farther than  
expected, Matthew was directed to return to  
the neighbor's cabin a few rods away, to wait  
until he should be called for.

He never reached the cabin, nor was he  
ever heard from again. His tracks were fol-  
lowed for a short distance and then lost. The  
local Indians were friendly and disclaimed any  
knowledge of the boy though they said a small  
party of Canadian Indians passed through the  
neighborhood at about that time.

Both Indians and settlers joined in the  
search for the boy, but to no effect. The mother  
died after several years of grieving, but the  
father lived long after the incident.

About thirty years later word came from  
Cleveland that there was a man there who did  
not know what his name was, but knew that  
he had been taken from his home somewhere  
in Ohio by Indians. He hoped to find his  
people. Brayton's father, still living, told of  
two years on Matthew's body, and it was found  
that the stranger at Cleveland had been there.  
It was believed that the lost boy had been found  
at last, but it proved that he was not Matthew  
Brayton, but only another Ohio boy who had  
been stolen away by Indians.

# Potato "Patch" in County To Raise 17,000 Bushels

As a result of an experiment to modern farming methods are now being used, a Marion farm is now producing 250 bushels of potatoes to the acre. Not long ago at that rate, but 68 bushels or a total crop of 17,000 bushels.

The farm is located on Marion road, No. 7, about six miles west of here on Gooding pike, and is managed by E. D. Gault, who is owned by Z. C. Kline, of Marion, O., who undertook the experiment with Gault managing the farm.

The latest wrinkles in potato growing are used on this farm. When they were growing last summer the potatoes were sprayed 11 times. Two tractor-drawn automatic diggers unearth potatoes faster than 25 men can pick them up. These crates built on trucks are lifted from the trucks by a hoist and transferred to an automatic machine which crates the potatoes, sorting different sizes.

A large insulated storage room, built especially for housing "spuds" will keep potatoes throughout the winter without freezing or with- out rotting or sprouting. The building is specially ventilated.

# Toss-Toss-Toss All Night Long!

## Sleepless Nights a Penalty of Acidity

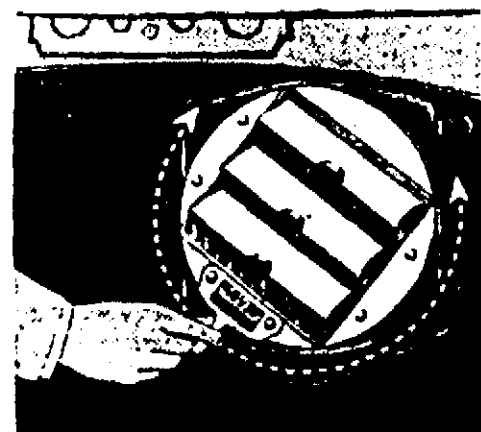

When you go to bed at night tired and exhausted and still can't sleep and you toss fitfully on your bed all night long, trying first one position and then another it's almost a sure sign that you are acid. Excess acid, formed in the stomach as a result of our unbalanced living habits, causes acid- indigestion with sourness, burning and gasiness. It also plays havoc with our nerves, making us jittery, fidgety and so restless at night that we can't sleep, even though we are dog-tired.

Magnesia Oxide, developed in Germany by a famous, 100-year-old pharmaceutical house, corrects acidity in the right way! Upon contact with the acid in the stomach, Magnesia Oxide generates nascent, or active, oxygen. The "live" oxygen stimulates the alkaline gastric juices checks putrefaction in the gastrointestinal canal and stimulates the activities of the intestinal walls which aids the natural movements of the bowels. All three effects are necessary to the true correction of acidity.

## Make this Acidity Test

To ascertain just how "acid" you are, make this test. Get a package of Magnesia Oxide from Eberley's Drug Store or any other good drug store. Take two after each meal and see how much better you feel—how much more soundly you sleep and how much more energy you have. If, after taking the contents of one bottle, you don't get more than amazing results, return the bottle to the druggist and he will refund the purchase price promptly.—Adv.

# STOP BAD BREATH

Thousands of people afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know. Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous cathartics does without any of the bad after effects. Olive Tablets bring no griping pain or any disagreeable effects. Dr. F. M. Edwards discovered the formula after 20 years of practice among patients afflicted with bowel and liver complaint, with the attendant bad breath. Olive Tablets are purely a vegetable compound; you will know them by their olive color. Take mildly for a week and note the effect. 15c, 50c, \$1.00.—Adv.

## WINTER FAIR DATES ARE SET

Annual Hardin County Exposition Will Be Held At Army Jan. 22 to 24.

**Special To The Star**  
KENTON, Oct. 16—Dates for the annual Hardin County winter fair and exposition, sponsored by the Hardin County Corn & Grain Improvement association and participated in by hundreds of farmers from over the county, were announced today by officials of the association.

The affair this season will be held on Jan. 22, 23 and 24, probably at the Hardin County armory.

A later date was picked, it was pointed out, since in previous seasons the holidays have had a tendency to diminish attendance and the number of exhibitors.

There will be displays of corn and grains together with every variety of farm produce grown in the county. The entries are to be judged by expert farm leaders and awards given to winners in all classes.

As in former years the vocational agricultural classes of the various high schools in the county will have a department of their own with awards being given to winners.

There is a possibility that an automobile show will be held in conjunction with the annual exposition.

Fifty years after a man has achieved fame, finds every girl he ever knew credited with being his old sweetheart.

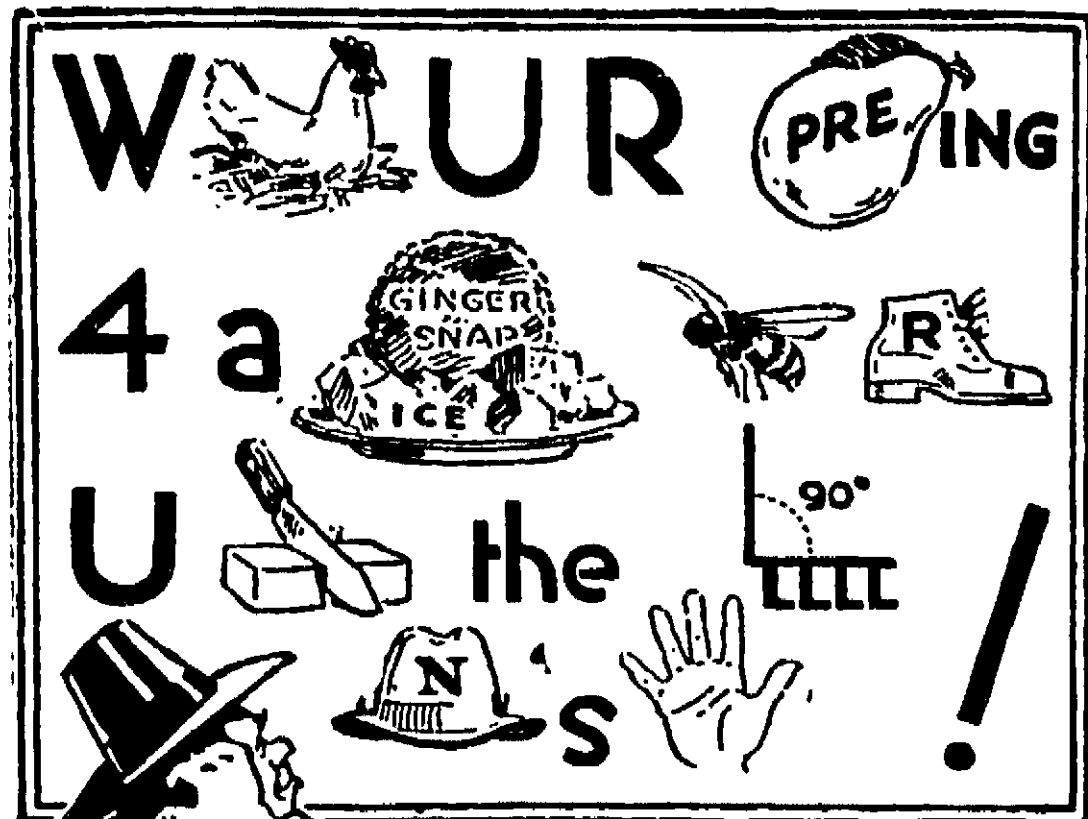

## Hemorrhoid Sufferers

Stop Pile Misery Without Cutting

Pile sufferers can only get quick, safe and lasting relief by removing the cause—bad blood circulation in the lower bowel. Cutting and snipping can't do this—no internal remedy must be used. HEM-ROID, the prescription of Dr. J. S. Leonard, succeeds because it removes this blood congestion and strengthens the affected parts.

HEM-ROID tablets as sold by druggists everywhere, have such a wonderful record for quick and lasting relief, that Henney & Cooper always sell them with guarantee of money back if they do not end all Pile suffering.—Adv.

## Rail Officials To Confer on Removal of Shop

**BUCYRUS**, Oct. 16—In a reply received late yesterday to a telegram sent several days ago to General Manager L. S. Emery, of the Ohio Central division of the New York Central railroad by City Solicitor Charles F. Schnor, Friday was set as the date for a conference between the railroad official and the solicitor relative to the proposed removal from Bucyrus of the heavy repair shops of the local N. Y. Central to Collingwood.

U. S. Ideas in Australia—Latest American ideas and equipment have been used in the \$2,500,000 addition to a leading chain of variety stores in Australia. The innovations were adopted after the architect had toured the United States in quest of ideas. The cafeteria, seating 1,000, is American-equipment even to the facing of the building with rose-pink, white and blue terra cotta, and the interior with tile and marble in modernistic color arrangements—a radical change in conservative Australia.

## As You Desire

THE manner in which the funeral is conducted, the quality of every detail, arrangement and proceedings: that is your farewell to the one departed; that should be your best effort. It need not be expensive or extravagant; nor must it be for effect alone. What you can afford to pay will obtain the degree desired: if your selection of mortician is correct. In that way our service cooperates most effectively.

# RADIO NEWS AND PROGRAMS

## Trans-Atlantic Conversation To Be Heard Here

A TRANS-ATLANTIC conversation between Senator Guglielmo Marconi, father of wireless, and a radio listener, president of the National Association of Broadcasters, will be heard by radio listeners all over America Thursday night, if plans are successful.

Senator Marconi will speak from the Elettra, in the Bay of Naples, while Sarnoff will talk from the New York studios of the National Broadcasting Company. The words will be broadcast through the WEAF network of stations.

Thursday night's trans-Atlantic conversation is expected to last 10 minutes. It will come during the 10:30 p. m. hour, from the WEAF network. The conversation is expected to begin at 10:20 p. m.

**JAMES J. DAVIS**  
Davis, secretary of labor, will be heard over the Columbia network Thursday at 10:30 p. m. in the Radio Rally series.

## Labor Head Will Speak in Radio Rally Program

**JAMES J. DAVIS**, the secretary of labor will be the speaker in the Republic Radio Rally over the Columbia system Thursday at 10:30 p. m.

"The Interest of the Workingman" is the title chosen by the labor secretary for his address in the series designed to acquaint voters with the issues of the present congressional campaign.

He will be introduced from Washington by Frederick William Wile, political analyst of the Columbia network.

Republican and Democratic campaign orators are heard alternately in the Radio Rally programs, which are arranged in cooperation with the national committees of the two major parties.

A group of Stephen Foster favorites will be played by the orchestra directed by William Merrigan Daly during the Niagara-Hudson program over the WEAF network Thursday at 7:30 p. m.

"Garden in the Rain," by Carroll Gibbons, to be sung as a tenor solo by Paul Languay, will open the Maxwell House program to be heard over the WJZ network Thursday at 9:30 p. m.

A program of always delightful Hungarian Gypsy melodies will be played by Emory Deutsch and his string ensemble for the audiences of WABC and the Columbia Broadcasting network Thursday at 8:15 p. m.

The regular monthly program of Old Favorites will be presented during the Mid-Week Federation Hymn Sing to be broadcast over the WEAF network Thursday at 7 p. m.

Del Lumpe and his orchestra will present a group of popular selections as the Friendly Five Footnotes program, to be broadcast from the NBC Chicago studios Thursday at 7:45 p. m.

Hear Papers on Women's Lives

MEMBERS of the Round Table club met yesterday afternoon at the home of Mrs. C. O. Brown of South Vine street. The program hour included the presentation of the following papers: "Women of Feudal Europe and of French Solons," by Mrs. Howard Swink, "The Colonial Woman and the Frontiersman's Wife," by Mrs. Harry Martin and "Women of 1840-1850" and "The Rise and Fall of Godey's Lady Book," by Mrs. W. O. Nippert.

The business session included a report of the Central district conference of the Ohio Federation of Women's clubs held recently at Newark. It was voted to enter the literary contest to be held by the federation of women's clubs at the next meeting. The next meeting will be in two weeks with Mrs. Homer Waddell of South Vine street.

Hard, Red Pimples on Forehead  
Nose and Chin. Cuticura Healed.

"About two years ago I began having trouble with my skin. Pimples broke out on my forehead, nose and chin. They were hard and red, and some were small and some large. The pimples fostered and scaled over causing me to scratch. They surely were disgusting and annoying. I read an advertisement for Cuticura Soap and Ointment and sent for a free sample. After using it I noticed an improvement so purchased more and after using them daily for two months I was completely healed." (Signed) Miss Margaret Giese 1808 Elizabeth St., Menominee, Mich.

Soap 25c, Ointment 25c and 50c, Talcum 25c. Sold everywhere. Sample each free. Address: "Cuticura Laboratories, Dept. H, Malden, Mass."

Did your Child have  
a bad cold last week?

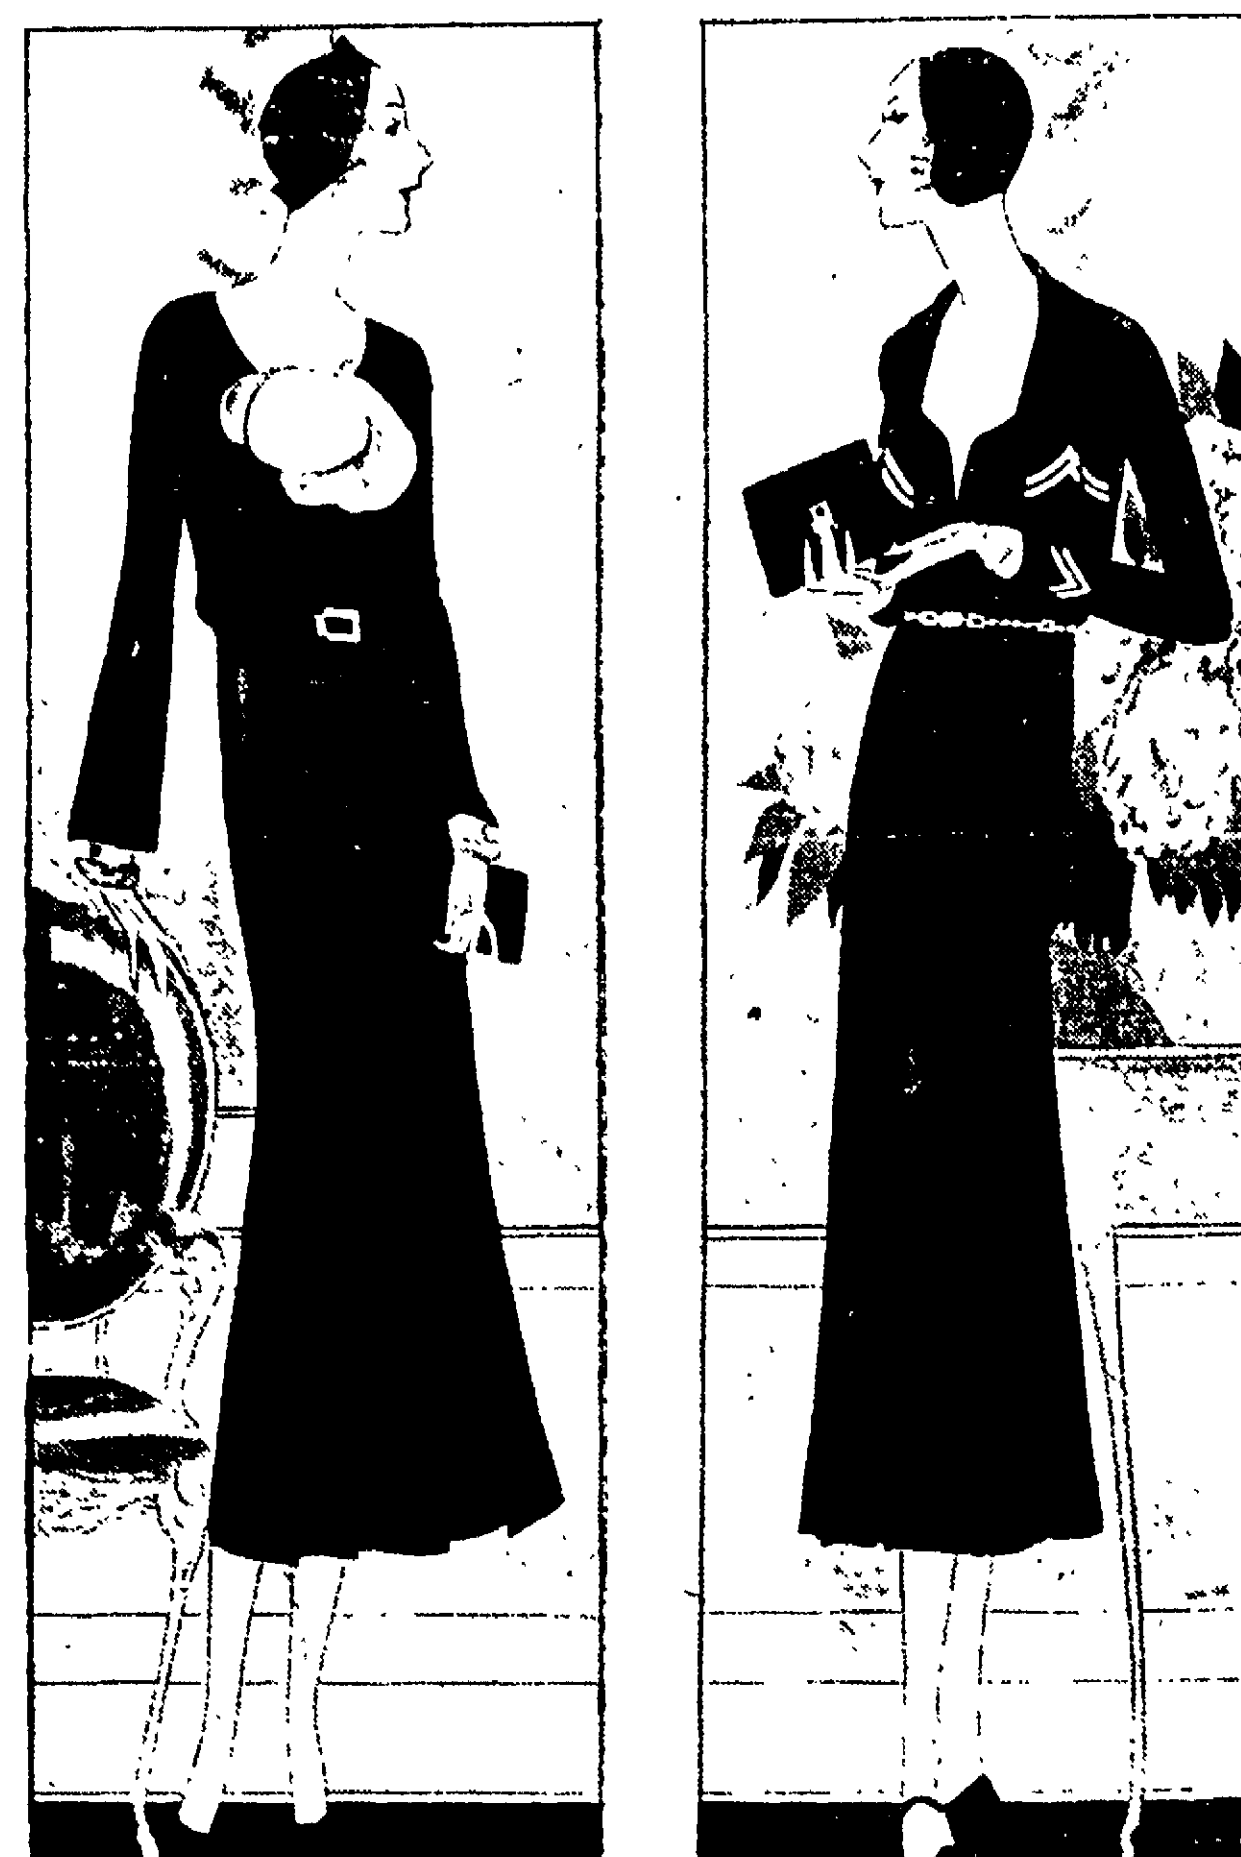

If your child had a bad cold last week, don't be content just because the child is no longer hacking and sneezing. A cold is bad enough, but a child that catches cold easily and often, needs attention.

Half-sick, pale run-down children do not have the strength to resist disease and throw off infection. The after-effects of a cold can be very serious. Start now to build up weight and strength.

Father John's Medicine has been proved for over 75 years by countless mothers. It is used regularly by over 181 institutions and hospitals. It is a simple food medicine that supplies the vitamins that every child needs. Children thrive on it amazingly. Their appetite improves, their very food seems to do them more good. Pale cheeks gladden with health. Little bodies become strong and vigorous.

Father John's Medicine is a combination of simple food elements, none of which could harm an infant. Because of its scientific combination of ingredients it brings the benefits of cod liver oil in a form best suited to a growing child's needs. It is easily assimilated by even the most delicate stomach. It tastes good and contains no alcohol or drugs.

If your child had a cold last week, start now with Father John's Medicine. Don't take needless chances when this simple aid help build strength and vigor. Druggists have it.—Adv.

AMENDING SECTION 1 OF ORDINANCE NO. 3123, PASSED AUGUST 25, 1930.

Be it ordained by the Council of the City of Marion and State of Ohio:

Section 1. That Section No. 1 of Ordinance No. 3123, passed August 25, 1930, be and the same hereby is amended to read as follows:

"That in accordance with Ordinance No. 2917, passed September 24, 1928, and Ordinance No. 2969, passed March 11, 1929, it is deemed necessary to issue and sell bonds of said City of Marion, Ohio, in the principal sum of \$487,151. In the liquidation of the levy and collection of special assessments for the purpose of paying the property owners' part of the cost of improving West Center Street from the east side of Oak Street, extending southward to the west line of Main Street, by grading, setting the necessary curbs and crosswalks, constructing the necessary drains and retaining walls, gutters and catch-basins, and repaving or resurfacing the roadway thereof, with any substantial paving material; of the cost of improving Pennsylvania Avenue, in said City from Center Street to Church Street, and of Center Street from Center Street to Church Street, by grading, setting curbs and crosswalks, constructing the necessary drains and retaining walls, gutters and catch-basins, and paving the roadway thereof, with any substantial paving material; and of the cost of improving Walnut Street in the City of Marion (Ohio), from Vine Street to Delaware Avenue, by grading, setting the necessary curbs and crosswalks, constructing the necessary drains and retaining walls, gutters and catch-basins, and paving the roadway with macadam with top dressing of asphalt or other good surfacing material. Said issue shall consist of thirty-eight bonds of the denomination of \$12,556.58 each except No. 1 which shall be of the denomination of \$1,071.51 and shall be numbered consecutively from one to thirty-eight, both inclusive, shall be dated September 1, 1930, and shall be due and payable, \$3,551.51 on March 1, 1932, \$2,000.00 September 1, 1932, and \$2,000.00 March 1st and September 1st in each of the years 1933 to 1939, both inclusive, and \$3,000.00 March 1st and September 1, 1940, shall bear interest at the rate of 5 1/2 per annum, payable semi-annually on the first days of March and September of each year until the principal sum in paid, said interest being evidenced by coupons attached to said bonds and bearing the facsimile signature of the City Auditor, provided, however, that if said bonds are sold bearing a different rate of interest than hereinbefore specified, such bonds shall bear such rate of interest as may be provided for in the Resolution of Council approving the award thereof. The principal and interest of all of said bonds shall be payable at the office of the City Treasurer in said City of Marion, Ohio."

Section 2. That original Section No. 1 of Ordinance No. 3123 be and the same hereby is repealed.

Section 3. The City Auditor is hereby directed to forward a copy of this Ordinance to the County Auditor of Marion County, Ohio.

Section 4. This Ordinance shall take effect and be in force immediately after its passage and approval, and the same is hereby declared to be an emergency measure in the interest of the public health, safety, convenience and welfare, and for the reason that the proceeds to be derived from the sale of the bonds herein provided for should be made immediately available to retire the notes issued in anticipation of the issuance of said bonds, said notes being now due and payable.

Published in Marion Star Oct. 9, 1930.

Passed October 7, 1930.

E. MURKEL, President of Council.

Approved October 8, 1930, W. L. Don Jones, Mayor, Attest: S. Larkin, Clerk.

## HERE ARE YESTERDAY'S COOKING SCHOOL RECIPES

Here are the recipes demonstrated yesterday by Mrs. Emily M. Lautz at The Star's cooking school.

ter haste slices of pineapple on top of the ham with the liquid in the pan.

### HAWAIIAN HAM

Place a slice of ham cut 1 inch thick in an open pan, sprinkle with ground cloves, mustard and brown sugar and 3 tablespoons vinegar. Pour into the pan enough of the pineapple juice so that the ham stands one-half inch in the liquid. Cut uncooked sweet potatoes length-wise, dip in margarine, sprinkle with salt and brown sugar. Place in 400 degrees F. oven for one hour. During the last quar-

**SOUTHERN BEATEN BISCUIT**  
One qt. flour, 1 teaspoon salt, 4 tablespoons shortening, milk to make a very stiff dough. Knead and then beat with a stout stick until the dough is smooth and blisters. Roll 1/2 inch thick, cut into rounds, prick with a fork and bake 20 minutes in a 375 degrees F. oven.

### SPOON CORN BREAD

Pour over 1 cup cornmeal, 1/2 cup

boiling water. Sift together 1 tablespoon sugar, 1 teaspoon salt, 2 teaspoon baking powder, beat into cornmeal 2 T. shortening and 1/2 cup cold boiled rice.

Add sugar mixture and two eggs that have been beaten with 1 cup milk. Pour into a well greased dish and bake in a 400 degree oven 45 minutes. Serve from same dish.

**PINEAPPLE CRUMB CAKE**  
Three-quarter cup shortening, 1 1/2 cups granulated sugar, 3 cups flour, 4 1/2 teaspoons baking powder, 1/2 teaspoon salt, 1/2 cup brown sugar, 2 eggs beaten with 1/2 cup milk, 1/2 teaspoon lemon flavoring, 1/2 teaspoon vanilla, 1/2 cup chopped nuts, 1 cup drained, crushed pineapple.

Mix shortening, sugar, flour, salt and baking powder. Take out 2 1/2 cup of this mixture. Add egg mixture and flavoring to the remainder and beat until smooth. Grease an 8 inch tin heavily with shortening, sprinkle with brown sugar, then spread with grated pineapple. Pour over this one-half cup of the cake batter. Grease another tin and put in the remaining batter, sprinkle with the crumb mixture and nuts. Bake in 375 degrees F., oven for 30 minutes. Invert layer with pineapple for bottom, place other layer on top with the crumb mixture uppermost.

### EVE SALAD OR SPICED APPLES

There are four even sized Jonathan apples. Make a syrup of two cups of sugar and one cup of water, and eight cloves, one stick of cinnamon and red coloring. Pour tablespoons of cinnamon candies may be used instead of the last two. Cook apples in the syrup, basting carefully. Chill. Make a filling of finely cut celery, nuts, figs, or dates. Serve with mayonnaise as a salad or arrange around the Hawaiian ham with the sweet potatoes.

### PEACH SALAD

One cup mayonnaise, 1 cup cream whipped, 1/2 cup chopped nuts, 1/2 cup cottage cheese, 1/2 cup yellow cheese grated, halves of canned peaches. Arrange peaches in drawer of refrigerator and fill in around

them the other ingredients mixed to a fine consistency. Serve with mayonnaise.

### BUTTERSCOTCH SAUCE FOR ICE CREAM

Cook 2 cups brown sugar, 1/2 cup white syrup, 1 cup water until it begins to slightly thicken. Add 4 tablespoons margarine, 1 teaspoon vanilla and cook in a double boiler, stirring gently.

### MACARONI AND CHEESE CUTLETS

Make a thick white sauce with 2 tablespoons shortening, 2 tablespoons flour, 1/2 teaspoon salt, 1 cup milk. Add 1/2 cup grated cheese. Mix 4 cups of cooked macaroni with 1 cup of cheese sauce. Mixture should be about 1 1/2 inches deep. Chill thoroughly. Shape cutlets or slices. Dip in fine crumbs, beaten egg that has been diluted with 3 tablespoons water, then dip in crumbs again. Fry in deep shortening a delicate brown.

### LEMON ICE BOX CAKE

Three eggs, 1/2 cup granulated sugar, 1 tablespoon cornstarch, 1/4 cup milk, juice of 1 lemon, grated rind of 1/2 lemon, 1 cup confectioner's sugar, sponge cake, whipped cream.

Separate eggs, place well beaten yolks in double boiler with granulated sugar, cornstarch and milk, and cook slowly, stirring constantly until thick and smooth. Remove from fire, add juice and grated rind of lemon and let cool. Then fold in stiffly beaten egg whites, line a mold with waxed paper and then with sponge cake. Pour in filling and place in refrigerator for 4 hours. Serve with whipped cream.

**Nanking Very Ambitious**—Nanking, China, proposes to reconstruct the city in a big way. Already 77 proposals of improvements have been adopted. Among them are the construction of a river port, installation of a waterworks system, opening of a metropolitan park and a grand metropolitan museum, provision for free clinics, promotion of industry and the opening of factories, development of afforestation, and laying out of a beautiful residential district.

## Tricornes and Bicorne Fit Into Paris Fashion Picture

BY DIANA MERWIN

(Associated Press Fashion Editor) PARIS—Hat shopping in Paris evolves into a sort of chant with a theme of "tricorne, bicorne, bonnet or beret."

All are important forms of autumn millinery of the brimless variety.

Tricorne and bicorne fit right into the picture with the modified coachman coats, double breasted with wide lapels, which will undoubtedly have a big following among the young and slender.

Such coats and a basque bodice suits or dresses require small saucy hats turned up off the face.

There is more than a smack of 1830 quaintness in many autumn costumes. The bonnets and baby bicorne and tricorne emphasize it and bring it up to date at the same time.

Berets, of the many types and materials, permeate the whole range of smartness, sport, tailored, afternoon and even evening. Furhats prefer their tricorne small and shiny. Black hatter's plush or panne velvet are prime favorites.

The smartest tricorne are the shallowest and their upturned brims are a scant three inches deep, folded back closely against the head. Tricorne are worn at a jaunty angle.

Bicorne, or two cornered hats, are less military and fall readily into draped velvet forms. There

## His spelling was awful but his Eggs Polonaise are grand!

IN THE little hotel where I found this interesting recipe it was listed on the menu as *Eggs a la Polonaise*. And the recipe I couched away from the chef was as complicated as his spelling. I simplified the name when I simplified the recipe.

But call it whatever you like—it's particularly appropriate for Sunday night suppers, and not too fussy for any day in the week. Deep fried in Crisco, it comes piping hot to the table as delicately flavored as this sweet fat it was fried in.

### POLISH EGGS

6 eggs, beaten 1 tablespoon cream  
1/2 cup grated cheese 2 tablespoons Crisco (melted)  
1 teaspoon minced parsley 1/4 cups small bread dice  
1 teaspoon minced onion 1/2 teaspoon salt  
1/4 teaspoon pepper

Mix eggs, cheese, parsley, onion, seasoning, cream and melted Crisco. Add the bread dice. Drop by tablespoonsfuls into hot, deep Crisco (360°-370° F., or when one-inch cube of bread browns in 60 seconds) and fry a light brown (about 2 minutes). Serve plain or with Tomato Sauce (1/2 cups) or Tartar Sauce (1 cup).

### If you've lost your recipe for SALMON CROQUETTES

Pink inside—brown outside—these salmon croquettes make my mouth water just to think of them! They make a delicious main dish—salmon and potatoes, well-seasoned with chopped parsley to lend color and add flavor, wrapped in a golden crunchy coating that only frying in Crisco can give. Pools deep fried in Crisco always taste fresh flavored and good, for Crisco itself tastes sweet and fresh—and comes to you in an air-tight can.

1 cup salmon, canned or 1 tablespoon chopped parsley  
left-over, boiled 1 tablespoon chopped onion  
1 1/2 cups mashed potatoes 1/2 teaspoon salt  
1/2 teaspoon pepper

1 egg beaten with 1 tablespoon water. Dried bread crumbs. Mix ingredients thoroughly and shape into croquettes about the size of an egg—roll in dried bread crumbs, dip in egg, then in crumbs again. Fry in deep hot Crisco (360° F., or when an inch cube of bread browns in 10 seconds)—drain on unglazed paper. Serve plain, garnished with lemon rings or serve with cream sauce.

ALL MEASUREMENTS LEVEL. Recipes tested and approved by cooking authorities. Crisco is the registered trademark of a shortening manufactured by The Procter & Gamble Company.

**Taste Crisco—then any other shortening. Crisco's sweet, fresh flavor will tell you why things made with Crisco taste so much better.**

## Here is the way COOKING SCHOOL EXPERTS make tea!

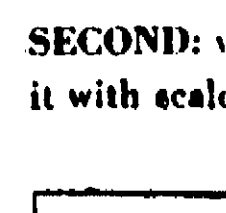

★ Look for this Map of India on the package of tea you buy!

For making tea that surpasses your ideal in flavor, richness and alluring bouquet, try this method:

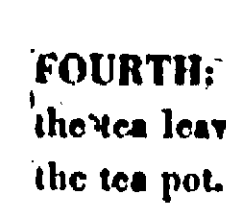

FIRST: see that the water you use is thoroughly boiling... not just steaming.

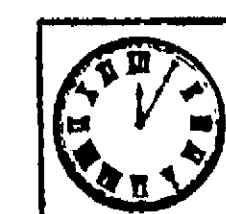

SECOND: warm the tea pot by rinsing it with scalding hot water.

THIRD: put a level teaspoonful of India Tea into the tea pot for each person to be served... and one for the pot.

FOURTH: pour the boiling water on the tea leaves and replace the cover of the tea pot.

FIFTH: allow the tea to brew for five minutes. No less. For it takes fully five minutes to draw out the flavor of fine tea. At the end of five minutes your tea is rich, full-bodied and flavorful... ready to serve!

MOST IMPORTANT: be sure to remove the tea leaves from the liquid at the end of five minutes. You can either pour the tea off in another tea pot or if you use a teaball take the ball out of the pot.

## MARION MAN STILL LISTED WITH ABSENT

Whereabouts of Erastus Bryson still unknown; Left here year ago.

The whereabouts of Erastus Bryson, a farmer formerly of Marion, who disappeared more than a year ago, must apparently be in history as an unsolved mystery.

Many months have passed since the man left his farm to take a sum of money to a life insurance company, no more has been received from him. The police of several cities have been unable to locate a man answering the description.

After waiting several months in

the hope that he would return, Mrs. Bryson was obliged to abandon the farm home on Harding Highway E. and make her residence with a daughter, Mrs. Homer McNamara in Westerville.

Bryson was last seen after he had purchased an interurban ticket to Columbus.

## Bishop Rogers To Visit Marion Episcopal Church

Head of Diocese of Ohio To Hold Confirmation Services Here at 10:30 A. M. Sunday; Will Also Conduct Rites at Upper Sandusky.

Bishop Rogers, head of the Episcopal Diocese of Ohio, will visit St. Paul's Episcopal church Sunday for confirmation services at 10:30 a. m. His presence here Sunday will mark his first visit in Marion since he became head of the diocese.

Confirmation, or the Laying on of Hands, as the service is called in the Episcopal church, is the method of admitting persons into the full communion of the church. It is a rite administered only by the bishops. Ordinarily the bishop comes once a year to each parish within his diocese for the purpose of confirmation. Sunday will be Bishop Rogers' sixth visit to Marion.

Sunday at 3 p. m. he will visit Trinity Episcopal church in Upper Sandusky. Both the Marion and Upper Sandusky services will be open to the public.

Among the appointments which Bishop Rogers has received was one as a representative of the Protestant Episcopal church on the continuation committee of the faith and order conference. This world-wide interdenominational conference seeking the reunion of the churches, was held at Lausanne

BISHOP WARREN L. ROGERS

in Switzerland in the summer of 1929.

Bishop Rogers was one of 66 bishops of the American Episcopal church who attended the Lambeth conference this year in England. The conference is held every 10 years at the palace of the Archbishop of Canterbury, London, England, and is attended by bishops of the Anglican communion from every part of the world. Coming from this conference, it is expected by the Marion church that he will, in all probability have something to say on the sessions.

Bishop Rogers was recently conferred the thirty-third degree in Masonry, in which he is actively and vitally interested.

## On the STREETS of MARION

With The Star Staff

### Old Fashioned Honesty

ADVERTISING that yielded speedy results was reported following insertion of a notice in the "Lost and Found" columns of The Star's classified page several days ago.

Mrs. Frank Conroy of Leader street lost \$10 and trusting that it fell into the hands of some honest person, advertised for its return. Within three hours after appearance of the advertisement the money was back in her hands.

That in itself was not so unusual. The distance from which the lost ten-spot was returned made the circumstance out of the ordinary. It had been found by a resident of Prospect, 10 miles from Marion. Immediately upon seeing the advertisement, the finder jumped into his automobile and drove to Marion to see that the money was promptly placed in the owner's hands.

That appears to establish a

record for energy in a display of honesty. It more than equals the speed and promptness that would be displayed by the average person seeking to collect \$10 instead of to get rid of it.

Then as a fitting climax, the finder refused to accept a reward but finally agreed to taking payment for the gasoline used in the trip from Prospect.

### Need Red Fire

MARION county is getting old-fashioned at least in one respect. The old-time political campaign seems to be staging a come-back this fall.

True, there are no horseback parades, probably because there are no horses. But the hands are playing and the political spell-binder is back in his element, telling his audience all about the merits and virtues of his cause and the faults

and flaws of the opposition. That goes for both sides.

The public seems to like it. Listening to campaign speeches over the radio is entertaining in its way and there is some satisfaction in sinking back into the depths of a comfortable chair at home while hearing the orators rend the air.

There is much lacking in this, however. The waving of arms and pounding fists of the zealous orator are invisible and other stage effects are lacking. There's nothing like getting political excitement first hand for real entertainment.

### Pardon, My Error

THERE is honor among thieves, but there are limits among women on convention trips and this must be told.

One of the real "live" jokes at a big Cleveland hotel lobby Sunday afternoon was the commotion one woman caused while making what she thought to be an attempt to protect her own rights.

When the woman in question and her friends alighted from an elevator, a boy immediately relieved them of their luggage, and the woman bravely walked to the desk to settle the room bill, taking second place in the line.

The woman in front of the subject of this item, paid her bill, picked up her traveling case and started for the front doors, evidently bent on catching a train.

Our friend, call her Sarah, gave one sharp look at the woman's luggage, immediately was overwhelmed, and gasping, clattered down the lobby, coat tails flying, whooping, "Lady, lady, you've got my bag!" and repeating the line over and over again.

Finally the woman pursued turned, drew herself up to her full and majestic height, looked down her patrician nose and shriveled Sarah with "Madame, indeed I do not have your bag." And then Sarah saw the travel tags on the bag she was claiming.

Sarah slunk back to the desk, paid her bill and slipped out of the hotel, followed by the boy carrying all the luggage and her precious traveling case.

### BUYS STATIONS

Sinclair Takes Over Public Service Property: One in Marion.

As part of an expansion program throughout the state, the Sinclair Refining Co. has acquired the Public Service Oil Corp., of Columbus, distributing approximately 200,000 gallons of gasoline monthly in various sections of the state.

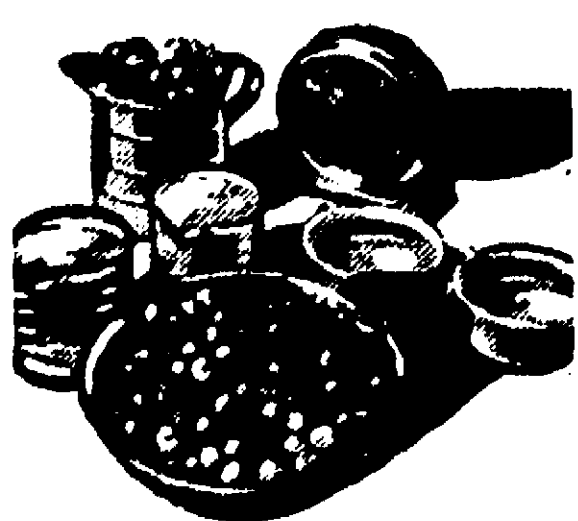

Control of the company was assumed Sept. 1, following completion of negotiations.

Included in the stations held throughout the state by the former Public Service Oil Corp. is one on North Main street in Marion. The Sinclair Co. has a number of stations here, and is said to be planning to expand its local holdings.

## 10 MINUTE CRANBERRY SAUCE

No fruit is better adapted to giving dishes an individuality than the colorful piquant cranberry.

Fresh cranberry sauce gives the glorified touch and zest to every meal especially when served with hot or cold meats or fowl.

Make your meals interesting and flavorful by serving fresh cranberry sauce made quickly and economically by this recipe.

### Cranberry Sauce

4 cups (1 lb. or qt.) cranberries  
2 cups water 1 1/2 to 2 cups sugar  
Boil sugar and water together 5 minutes; add cranberries and boil without stirring (5 minutes is usually sufficient) until all the skins pop open. Remove from the fire when the popping stops.

For a thinner sauce, just bring water and sugar to a boil—then add berries and let them cook until they stop popping.

Gus Manhart (inset), pilot, Edinburg, Texas, escaped safely when his plane landed in a network of live wires.

Whale Leather Gloves Out—Women of Europe are again finding the whale an aid to their wardrobe. Whale "leather" is being used in making fashionable gloves, and style leaders have approved the new material composed of the intestines of the huge swimmers. The new gloves are delicately soft, but so tough that it is almost impossible to wear them out. The whale has not contributed to women's styles since the days of the whalebone corsets.

Pearls are produced by the megalitha (speckled) oyster only, the products of the other brands of oysters being declared not genuine by a recent decree in the French courts.

Manufacture of phonograph records has just been introduced into Poland, a new plant in Warsaw being expected to produce 1,000,000 records in its first year.

That it is possible to glide without an airplane engine from Edinburgh, Scotland, to London, was the declaration of a British scientist recently.

A big word may attract attention to your thought when a little word won't.

## BLUE VELVET

Above is depicted the latest American style in evening dress. A gown of turquoise blue velvet. Long pointed bodice from which a circular skirt with straight hip lines flows gracefully. The twisted belt is of self-colored velvet and the buckle in turquoise and rhinestones carrying a simple elegance which brings forth marked distinction.

Woman, 100, Still Dances—At a dinner in London recently Mrs. Adeline Gener, a ballerina of Edwardian days and president of the Association of Operatic Dancing of Great Britain, told of a friend who is "nearly 100 years young and still keenly interested in dancing." "On one occasion," she said, "my friend heard a waltz played on a phonograph and invited her daughter, who is 75, to dance it with her. The daughter had to give up, although the mother was anxious to carry on."

## RELIEF FROM CURSE OF CONSTIPATION

A Battle Creek physician says: "Constipation is responsible for more misery than any other cause."

But immediate relief has been found. A tablet called Rekal Orderlies has been discovered. This tablet attracts water from the system into the lax, dry, evacuating bowel called the colon. The water loosens the dry food waste and causes a gentle, thorough, natural movement without forming a habit or ever increasing the dose.

Stop suffering from constipation. Now a Rekal Orderlie at night. Next day feel better. Get 24 for 25¢ today at the nearest Rekal Drug Store. C. G. Ungersicht—Adm.

## Tender Gums

When your gums shrink away from your teeth you have pyorrhea. Allow this disease to continue and your teeth will fall out. We can treat pyorrhea successfully, save your teeth and restore your gums to a healthy condition. The only alternative is false teeth, and no one wants a mouth full of false teeth.

## ACTRESS ANSWERS

No Grounds for Naming Her in Divorce Suit, Alice Brady Says.

By The Associated Press  
ATLANTA, Ga., Oct. 16—Alice Brady, stage and screen actress appearing here as the guest star of a stock company, today maintained there was not the slightest foundation for her being named co-respondent in a Detroit divorce suit brought by Mrs. Bernice McClelland, wife of Miss Brady's leading man.

Donald Cameron McClelland, defendant in the divorce case, issued a statement saying:

"I think it a shame that anybody as fine as Miss Brady should be dragged all over the front page of the newspapers. My only connection with her has been a purely business one. As for taking trips, they were purely of a business nature. I might have left on any train, but it is natural for a company to travel together."

The divorce bill charged Miss Brady made trips with McClelland and entertained him at her New York home and that he made the Brady home in New York his mailing address.

Music Soothes Brigands—How music soothed Chinese communist brigands is told in letters recently received in Glasgow, Scotland, from Mr. and Mrs. R. Porteous, Scotch missionaries in China. The couple were captured on the road to Anfu, and were held for \$20,000 ransom each, but finally were released. Porteous wrote that for three days after their capture they had abuse heaped upon them. Their meek attitude seemed to impress the brigands who gave Porteous an old damaged concertina to repair. He tied it with a string, and "squeezed" some music out of it. Later, he and Mrs. Porteous sang some songs in English for the captors, after which the brigands became friendly, treated them with utmost consideration, and assured them their lives would be spared.
